

Ban Suk Jai Children's Home *Newsletter* **Meet Isaac - May 2008**

Yesterday afternoon Isaac and his mum turned up at the gate of BSJ with a bag of clothes. His mum only 18 years old has no family, job or home and no way of providing or caring for him.

This morning she came back to sign the papers and hand Isaac over in our care.

Isaac is from the Hmong people group (same as Esther). The mother says that the father is dead but that may not be the case as she was only 15 years old at the time it is very likely that he is just not around.

He only arrived a couple of hours ago but we can already see that he is a very friendly and playful boy. Isaac is aged between Joel and Samuel but is much bigger than all 3 older boys.
